

## STAFFING SERVICES

WCFS works with private and government organizations who provide care or treatment for people who may be in transitional points in their lives, these transitional points may lead them to make unhealthy choices. WCFS provides professionals who are trained and have gained extensive experience in the fields of Social Work, and Child & Youth Work.

WCFS also provides professionals who are experienced and trained to work with people of all ages who have been diagnosed with ASD (Autism Spectrum Disorder). WCFS associates are experienced in providing treatment for this population. Our associates also provide support for individuals who have had the misfortune of being involved in an accident which has left them with an Acquired Brain Injury.

WCFS associates are available for organizations who work with the above populations, on an as needed basis, long term contracts, short term contracts, or to develop and implement specialized treatment plans.

## SCHOOL SUPPORT

WCFS associates are available for school boards that have concerns with specific young people enrolled in their schools. WCFS associates have worked with various children in classroom settings alongside the teacher, and behavioural consultant. Some of the concerns that our associates have faced in the past were: ADHD (Attention Deficit Hyper-activity Disorder), ASD (Autism Spectrum Disorder), PDD (Pervasive Developmental Disorder), Bi-polar, Depression, and emotional trauma. Our associates are carefully selected for each individual student stemming from the associates skill base and the students current needs. WCFS associates are also available to develop and implement programs which allow the student to learn at their individual pace. This in turn results in the teacher being able to focus on the academic requirements that exist within the Province of Ontario.

## CONSULTATION SERVICES

WCFS takes into consideration that our society consists of people that are suffering through disorders that lead them to have very little control over their behaviour. These behaviours can be self injurious or injurious to people around them. WCFS provides support through consultation and specialized program development for specific teams that are working with these people in need. These consultations would begin with a needs assessment and conclude with a team that has been exposed to alternative strategies in how to work with the client. Call our consultation team and let us know where and how we can help.

## TRAINING WORKSHOPS

The WCFS training department has taken the initiative of researching the latest, cutting edge strategies and philosophies that are being implemented in the social service sector. These presenters are available for customized training seminars for organizations as well as larger training workshops that are designed for the community at large. WCFS training workshops have been attended by Parents, Teachers, Educational Assistants, Child & Youth Workers, Social Workers, and Early Childhood Educators. Call our training department and ask for a list of the latest training workshops, and where they are being held.

## SENIORS SERVICES

WCFS provides support services to seniors who are currently living with/without physical and mental exceptionalities. This population of our society requires specialized attention, therefore our associates work from the belief that all of society's elders must be given the opportunity to enjoy a high quality of life. WCFS associates are available for behaviour modification programs, crisis prevention & intervention, community integration, as well as recreational programming 24 hours/day and 365 days/year.

## **PARENT RELIEF/FAMILY SUPPORT**

WCFS was born with the intention of providing support services for families who need extra support in coping with their children and their daily lives. Parent relief is available for parents who have children with exceptionalities. These children require specialists who are responsible for providing the parents with child specific coping strategies. WCFS associates will also provide respite care while parents are away dealing with essential everyday tasks, or simply just want some quality time to themselves.

## DAYCARE CENTRES

WCFS works with daycare centres that require support with specific children who have special needs. WCFS associates are available for child specific program development and implementation, which results in the existing team of professionals gaining practical exposure to different techniques and strategies on various challenges that exist in the children's services sector.
